## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3,6 and 25-28 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the claim is vague and indefinite because the claim recites the repositionable island being removably attachable to the front wall of the main unit....perpendicularly to the lengthwise extent of the countertop; however, the claim further recites the respositionable island including an island countertop that extends forwardly from the horizontal front top edge of the countertop of the main unit. It is not clear how the island countertop of the respositionable island is capable of extending forwardly from the horizontal front top edge of the countertop of the main unit if the claim requires the repositionable island being perpendicularly to the lengthwise extent of the countertop.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 6 and 25-27, as best understood, are finally rejected under 35 U.S.C. 102(b) as being anticipated by Klein as set forth in the previous Office Action.

Claim 12 –14, 16 and 17 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Medgebow (US Patent 3,904,041).

Medgebow teaches a “toy kitchen” having a first unit (C,B) with a first plane as claimed and at least one removable and repositionable second unit (A) having a second plane perpendicular to the first plane as claimed and being positionable so that the first and second planes are substantially coplanar when positioned on the short edge of the first unit. See also Col. 3, lines 45+. It is noted that the term “toy” breathes no life and meaning into the claims so as to structurally differ between that claimed and the device of Medgebow. It should be noted that the first and second unit is floor-supported by element 62.

#### ***Allowable Subject Matter***

Claims 9, 22-24 and 28 are allowed.

#### ***Response to Arguments***

Applicant's arguments filed 08/22/05 have been fully considered but they are not persuasive. In reference to Applicant's remarks that Klien fails to the disclosed elements of claim 1 and Medgebow fails to the disclosed elements of claim 12, the Examiner disagrees and directs Applicant's attention to the above rejection.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
